SFM is an internet-based sports facility management program that has been professionally engineered to help keep your leagues, tournaments and entire sports complex organized and running at maximum efficiency.

SFM manages the financial and day-to-day operations of your sports facility, handles online registrations and payment collection and offers complex customer management tools.

There is no expensive software to install, systems to maintain or files to upgrade!

### HIGH-END FEATURES

- »»» Touchscreen, PDA & TV Interfaces for
  - Schedules & Standings
  - Events & Activities
  - Point of Sale Software
  - Referee Score Entry
- »»» Web-Enabled Security Camera Integration
- »»» ID Card Printing for Members, Players, Referees & Employees
- »»» Customer Contact Book & Emailing Tool
- »»» Weekly Game Email Reminders
- »»» Team & Club Registration Management Software
- »»» Financial Reporting Tools Compatible with Today's Most Recognizable Programs

### Facility Management

Manage your venues and daily operations in custom blocks of time, generate financial reports and stay in contact with your customers and employees. SFM enables you to book activities and events, manage field rentals and birthday parties and process payments for nearly every imaginable facet of your facility. Manage your operations, finances, customers and employees with our wide array of management tools and features.

### League Management

Dynamically generate various types of leagues and tournaments using a wide array of scheduling options. Setup matchup parameters like preferred game times, print game cards and rosters, keep track of individual and team payments, email participants, enable online team registration and payment collection and print and display automatically updated, customizable schedules and standings on your existing website!

### Identification Management

Create custom photo ID cards for members, players, referees and employees. Scanning technology allows the cards to be used to cross reference players' names with rosters, view league suspensions, track employees' hours and payments and validate memberships. SFM's ID Management Department can handle all the necessary procedures including data entry, card setup and design, materials allocation and professional card printing.

### Registration Management

Our Registration Management System handles the internal registration data for your entire sports club and all of its associated teams. You can create teams, register players and staff, generate official rosters and print ID cards. RMS can process online payments and offers instant access to registration data season after season.
